

**DEPARTMENT OF INDUSTRIAL
ENGINEERING**

**IE 492 Project
Spring 2026**

Type:	Required
Credits/ECTS:	4 Credits / 8 ECTS
Class/Laboratory/PS schedule:	Monday 15:00-17:00 M 3100
Instructor:	All IE faculty members offering IE 492 Projects.
Course Coordinator:	Mahmut Ekşioğlu, mahmut.eksioğlu@bogazici.edu.tr
Teaching Assistant:	Özge Coşkun, ozge.coskun@bogazici.edu.tr
Course Web Page:	https://moodle.bogazici.edu.tr
Prerequisite(s):	Must be taken during one of the last two semesters.

Course Description:

Modeling, analysis and solution for an Industrial Engineering design problem. Students form teams of 3-4 members, and preferably work on a real-life problem. Projects are either sponsored by industry, or proposed by faculty members. A series of seminars are scheduled for introducing the course structure, conveying principles of an industrial engineering design project, and to emphasize the importance of engineering ethics and social responsibility in IE projects. IE 492 Project course is expected to synthesize knowledge obtained throughout the IE curriculum.

Course Schedule and Important Dates:

	Activity
Monday, February 9, 2026	The coordinators introduce their project topics
Monday, February 23, 2026	Proposals are submitted to the coordinator and to advisors
Friday, April 10, 2026	Midterm Presentations
Friday, May 15, 2026	Final Presentations
Wednesday, June 3, 2026	Submission of Final Reports

Course Conduct and Grading:

The following table presents a list of course requirements that are evaluated or graded.

Requirement	Evaluator	Percentage of the Course Grade (%)
Proposal	Coordinator and advisor	Either accepted or rejected pending revision
Midterm Presentation	Participating Faculty	10
Final Presentation	Participating Faculty	25
Final Report Written Report Content	Advisor(s) • Project advisor + 3 advisors of other projects • Advisor	40 8 32
Individual Project Performance	Advisor	25

The Proposal outline, guideline for evaluating the Midterm Presentation, the Final Presentation Evaluation rubric, the outline for the Final Report, the Final Report Evaluation rubric, and the Individual Team Member Evaluation rubric are available on Moodle.
